

AIRJET BOARDING BRIDGE TYRE

FMC Air system

This type of boarding bridge tyre is basically suitable for the FMC Air System. This new wheel carriage for the A380 upper deck passenger boarding bridge is a robust, heavy duty design that incorporates features to increase operational longevity and stability.

S.No	Size & Model	Hub Wt in kg	Rubber Wt in kg	Total Wt in kg
1.	40 x 16 x 30 (FMC)	388	282	670
2.	40 x 16 x 30 (Thyssenkrupp)	358	242	600

Thyssenkrupp Air System

This type of boarding bridge tyre is basically suitable for the Thyssen Air system. It offers a heavy duty design but with no flange hub.
